Installation of PRESTIGE graphic libraries

1. Save the graphic library in a folder on your hard drive, e.g. C:\graphics. Remember the path; you will require it later for the installation.
2. Start PRESTIGE
3. Select the “graphic library” option under the menu item “extras”.

4. Now please click on “new library ...”.
5. The following dialog window will appear:

Installation of PRESTIGE graphic libraries

- Now use the button “...” to select the directory on your hard drive, where you have saved the graphic library.
- Confirm using “OK”.
- To install the library which you have just read, click on the “install” button.

- Your selection is included in the “Installed libraries” list. Close your selection window by clicking on the “Close” button.
